## Annexure – 7: Payment and Penalty Norms

### • Payment Norms

1. 30% On commencement of the training batch against validated candidates (after 21 days)
2. 40% On successful certification of the trainees
3. 30% Outcome based on placements

**Note:** The payment for OJT hours in the job role will be calculated based on 10% of the training hours or the total OJT hours, whichever is lowest. For example, if the course has a total duration of 1000 hours, with 420 hours allocated for training and 580 hours for OJT, the calculation would be as follows:

1. 10% of the training hours (420 hours) = 42 hours
2. Total OJT hours (580 hours)

Among these two values, the lowest one is 42 hours. Therefore, the payment for OJT will be based on 42 hours. This means the total hours of payment for that course will be 462 hours.
