## HCL Uday by HCLFoundation

HCL Uday's success, drawn from the 'convergence' model where NGOs, duty bearers, communities and HCL Foundation come together and work towards integrated community development. This programme is now in scaling up phase in all cities, where HCL has a presence.

India has the world's largest youth population, with 354.4 million people aged between 15 and 29 years (India Labor Market Update, 2016, International Labor Organization – ILO). Despite the economic growth and an increase in general education levels, youth unemployment is a growing challenge, especially among the urban educated youth. Many families/ youth migrating from the rural areas end up living in slum areas (low-income housing) and youth from these households lack access to the resources and opportunities to make a foray into formal sector employment.

The goal of “**Skill Development & Livelihoods**” portfolio is to empower youth so that they are able to break the cycle of poverty and lead a life of dignity. The portfolio is further bifurcated in the following three sub- themes-

### Skill Development & Livelihoods Framework

## Skill Development & Livelihoods Thematic Objectives

- **Yuvakendras & Career Counselling:** Skill Development Centers help in reducing the gap between demand and supply of skilled work force by providing training in skill development and skill upgradation. The Yuvakendras enhance the vocational skills of

# HCLFoundation

youth, by imparting placement-linked and market-oriented skill training with suitable wage/ self-employment opportunities. Providing quality career guidance to School/ College students coupled with technical training to open their horizon to various career choices and make them placement ready.

- **Women Empowerment & Incubation of Social Enterprises/ Micro Entrepreneurs:** Marginalized sections have a strong desire and capability to break the cycle of poverty. Social mobilization, building institutions and providing alternative income generation opportunities are critical. Facilitation of knowledge, handholding, skill building, access to credit, access to forward and backward market linkages, awareness of rights and entitlements and access to livelihood services stimulate this upward mobility. Facilitating, handholding and nurturing young women and men. Undertaking capacity building, providing seed money and working closely to bring about long term sustainable solutions.
- **Collaborating with Government Institutions:** Information deficit among school and college goers is common and is further magnified in Government institutional setup. This information asymmetry hinders them from effectively participating in the workforce. Providing career guidance and counselling to students of public schools will prove to be critical for their progress and development. Similarly, strengthening of Government institutions in the vocational space is also the need of the hour. The focus will be on providing resources to existing Government Industrial Training Institutes (ITIs), Polytechnics and Government Institutions which will revamp quality education and improved learning experience.

## **Purpose of this RFP**

The purpose of this document is to Request for Proposals (RfPs) in line with the standards of HCLFoundation. Respondents are requested to submit their proposals based on detailed instructions given below to set up high impact project under the HCL Uday Program in the proposed location using innovative and sustainable models under Skill Development and Livelihoods thematic area.

## Request for Proposals

This RFP invites proposals from implementing agencies and social sector organizations which are **primarily working with government affiliated bodies such as Industrial Training Institutes (ITIs), and Polytechnics to collaborate and strengthen these government institutions.** The selected partners are expected to strategize depending on the local socio-economic context and the need of the trade/ courses to be taught in these institutions. **Proposals focusing on new-age employability skills tailored to current industries' needs and Future 4.0 Skills such as Electric Vehicles (EVs), CNC Operator/Programmer, 3D Printing, Electrician Power Distributor, Computer Operator and Programming Assistant (COPA), Welder/Fabricator, Fitter, Food and Beverages, Internet of Thing (IoT) will be given more prominence.** Placement of at least 85% of the batch is desired. Projects pertaining to setting up Yuvakendras for Persons with Disability (PwDs), transgender, and other such marginalized sections of the community are encouraged.

## Scope of Work

The scope of work against which the proposals are invited are classified as per Skill Development & Livelihoods Framework (see above figure). An NGO/ CSO/ not for profit organization working to strengthen government affiliated bodies such as ITIs and polytechnics to provide employable skills training to youth can apply under the Collaborating with Government Institutions pillar mentioned above in the Skill Development & Livelihoods Framework
